1.5 Essay Questions

1) Compare the Pennsylvania System versus Auburn System.

Answer: Answer (should include points such as):

- Pennsylvania System involved 24-hour-a-day solitary confinement, where the inmate never saw or interacted with another human being. The Auburn System, or congregate system, allowed inmates to work together (but without speaking).
- The Pennsylvania System was expensive to operate and construct, and inmates suffered from severe mental illness based on the isolation. The Auburn System was more efficient and inexpensive, and became the popular method of prison construction.

Page Ref: 15-17

Objective: Outline the development of the prison in the United States, including the Walnut Street Jail, Pennsylvania System, and the Auburn System.
